

MOBILE EXPEDITIONS
ROCA RIVER CAMP

Location and Access

Based within the Masai Mara National Reserve, on Paradise Plains. The Mobile Expeditions camp sits on the banks of the Mara River beneath a riverine forest.

The Camp is accessible by road, or by air.

Guests can fly by charter or scheduled flight to Musiara Airstrip where we will collect them.

Owner-run and Owner-Hosted

All guests staying with us in the Mara are hosted by both Ross and Caro Withey.

Caro's family has a rich history of safari and stunning camps in Kenya.

They themselves have strong ties to existing industry leading camps such as Sirikoi and Samatian Island.

Being hosted by Ross and Caro, and their amazing family and team means that all guests are able to experience an exclusive and personal, authentic and traditional safari, in a truly outstanding location.

Family History

Willie Roberts, the founder of Mobile Expeditions and Caro's father, was a true visionary and one of the forefathers and most instrumental ambassadors of wildlife conservation in Kenya. He set up the first Wildlife Conservancy in Kenya in the Maasai Mara, essentially founding the 'conservancy movement', saving the greater area from being carved up for farming, laying down a clear path of success for community conservancies in Kenya and setting an example and an inspiration for others to follow.

Willie's key eye for detail and passion for luxury safari also laid the way for him and his wife Sue, to start Sirikoi - one of Kenya's leading lodges.

Camp

The camp is a luxury, tented camp overlooking the Mara River. This small, intimate camp has its own unique charm that embraces its surroundings.

Dining

All our meals are freshly prepared by our team in house using locally sourced fresh produce. Typically meals are had outdoors, overlooking the Mara River, or under the stars.

Dining Al Fresco means that our guests are able to take in the sounds of the bush, watching elephant browse the river or birds calling the song of the wild.

Dining can be done communal with hosts or privately.

Cultural and Environmental Responsibility

A tented camp is the best choice for low environmental impact, and sustainable, ethical practices are enormously important to us. We are proud to run entirely on solar power and our safari-style tents mean we have not used any cement or indigenous wood in the camp's design and set-up.

Most of our team are Maasai people from the area and our ambition is to build career opportunities and to support local traditions.
